

Bew Straw Blower Fan

Bew Straw Blower Fan

Bew Straw Blower Fan from BEW INDIA We are one of the leading manufacturers, exporters, and suppliers of Straw Blower Fan. Straw blowers are often mounted on trailers or trucks for easy transport and maneuverability. They're especially useful for quickly covering large areas with mulch to help retain moisture, control erosion, and suppress weeds. Landscapers, farmers, and contractors commonly use straw blowers for various applications in landscaping, agriculture, and construction projects.

Blowing Mechanism of straw blower The fan inside the equipment generates a strong airflow, which propels straw or other mulch materials through a chute or hose. **Mulch Distribution:** The blown straw covers the ground evenly, offering benefits such as erosion control, moisture retention, and weed suppression.
