Greengold 220 Wheel mini

Greengold 220 Wheel mini Combine

KS Agrotech PVT. LTD. is introducing the latest Greengold 220 Wheel mini combine harvester, built explicitly for farmers to tackle dry and wet crop harvests in no time. This new model has a 53â€• drum and is driven by the right agricultural equipment, delivering immense power to harvest a huge field in no time. This specific implement is designed to provide power and accuracy at the same time. It has a capacity of 1 â€“ 1.25 acres, harvesting a wheat field per hour. Looking for an affordable Mini Combine Price? We offer competitive and farmer-friendly pricing to suit every harvesting need.

Greengold 220 Wheel Mini Combine Harvester is considered one of the most sophisticated agricultural equipment for Indian soil to use and harvest a huge area in no time. This harvester is ideal for harvesting paddy, wheat, sunflower, grams, pulses, soy beans, etc. It also shows immense performance in a paddy field by offering a harvesting rate of 1 acre per hour. The straw system built and integrated into this brilliant equipment contains an axle flow design. We also provide a high-performance Small Combine For Sale for farmers seeking efficiency and durability in tough field conditions. Our advanced Small Combine is designed to deliver maximum output with minimal grain loss across multiple crop types. The effective cutting rate and accumulation of the harvested grain decrease the rate of spoilage to a minimum. The design is essentially fabricated to overcome the challenges offered by crop fields in different climates. The Greengold 220 Wheel small corn combine harvester is the ideal machine to go for. If you are searching for a reliable Mini Combine For Sale, this model offers exceptional performance and long-lasting value.

Mini Combine Price

The Greengold 220 Wheel Mini Combine Harvester is designed to offer high performance at a farmer-friendly cost. The mini combine price is approx â‚¹6â€“15 lakh, depending on additional features, customization, and location. This estimated price makes it a practical investment for small and medium-scale farmers who want to improve harvesting efficiency while reducing labour costs. With its powerful engine, high harvesting capacity, and multi-crop capability, the Greengold 220 provides excellent value for money and long-term durability in Indian farming conditions.
