KSA 9355 Maize Special

KSA 9355 Maize Special

KSA 9355 Maize Special from BEW India is an all-new Self Propelled Combine Harvester that represents the best performance, productivity, and serviceability available. Maize is one of the most important crops in India that needs special attention for harvesting using versatile agricultural equipment. KSA 9355 Maize Special is the ideal choice for larger harvesting requirements. The specific design comes with a sophisticated infrastructure containing a powerful engine from Ashok Leyland, 1312 big clutch plates, heavy-duty gear, and a brilliant grain separation enhancement. The ideal design is fabricated by KS Agrotech so as to meet the specific requirements of Indian farmers.

KSA 9355 â€“ Maize Special is the ideal choice for tropical maize fields in India and other countries and is considered one of the most sophisticated agricultural equipment for Indian soil to use and harvest a huge area in no time. The choice of engine, rotor blades, and other important parts of the design is fulfilled by the leading brands in the industry. The durability of the latest maize harvester is unquestionable. The advanced enhancements to this new equipment design also allow a farmer to harvest other crops like grams, pulses, wheat, paddy, etc. The team of BEW India has fabricated a state-of-the-art heavy harvester for the easement of harvesting huge fields without wasting resources and manpower. The harvesting time and spoilage will be reduced to a minimum. The durable machine and its outstanding performance are what you need for your convenience in the crop field.
