Product Specification Sheet - 08 Nov 2026

KSA GREENGOLD 513 TD 2WD

KSA GREENGOLD 513 TD 2WD
For the most convenience of the farmers ,KSA Greengold 513 TD 2wd is a supreme tractor-driven combine harvester model that suits every need. This is a two-wheel-drive model designed by the eminent engineers in the team of BEW that offers 2 WD John Deere Tractor and the ideal enhancement in the front for combine harvesting. The outer cutter bar is specifically designed for an easement in crop harvest. It also comes with a 5 straw walker for an efficient grain separation reducing loss.
The harvester can be easily mounted on the tractor and used constantly without any worries of damage or maintenance. The equipment works perfectly based on computer-featured balance. This new agricultural equipment is highly useful for the separation of harvest from the crop. It is suitable for paddy, grams, pulses, wheat, sunflower, soya bean, etc. KS 513 TD 2WD is considered to be very farmer-friendly as its design complies with the field condition and weather very well.
